AGENDA

SPONSORED PROGRAMS COMMITTEE

Wednesday, April 23, 2014

11:00 a.m.

The Claiborne Building
Louisiana Purchase Room 1-100
Baton Rouge, Louisiana

- I. Call to Order
- II. Roll Call
- III. FY 2013-14 Board of Regents Support Fund Awardees
- IV. Concept and Timetable: Competitive Endowed Superior Graduate Student Scholarships Subprogram
- V. Two Requests for BoRSF Matching of Federal Proposals
 - A. National Institutes of Health Institutional Development Award (IDeA) Proposal
Dr. Tom Klei, LSU and A&M College
 - B. Department of Homeland Security Center of Excellence Proposal
Dr. Les Guice, Louisiana Tech University
- VI. Funding Recommendations for Proposals Submitted Under the Louisiana Systemic Initiatives (LaSIP) Program
- VII. Other Business
- VIII. Adjournment

Committee Members: Roy Martin III, Chair; William Fenstermaker, Vice Chair; Raymond Brandt; Chris Gorman; Edward Markle; Albert Sam II

AGENDA ITEM III

SENIOR STAFF RECOMMENDATIONS FOR FUNDING OF PROPOSALS SUBMITTED UNDER THE BOARD OF REGENTS SUPPORT FUND COMPETITIVE AND MATCHING GRANTS PROGRAMS, FY 2013-14

SECTION A: INTRODUCTION

A.1 Constitutionally Prescribed Program Components

The Constitution specifies that the Board of Regents Support Fund may be used to support any or all of the following programs:

- a. The carefully defined research efforts at public and private universities in Louisiana;
- b. The endowment of chairs for eminent scholars;
- c. The enhancement of the quality of academic, research or agricultural departments or units within a university; and
- d. The recruitment of superior graduate students.

A.2 FY 2013-14 Board of Regents Support Fund Plan and Budget

a. Projected Budget and Funds Available

On December 6, 2012, the Board of Regents adopted the FY 2013-14 Plan and Budget for the Board of Regents Support Fund, which was later approved by the Governor and the Legislature. Based on Revenue Estimating Conference (REC) projections, the Plan and Budget allocated \$23,000,000 across Support Fund components as follows:

FY 2013-14 Support Fund Budget As Set Forth in the Board's Annual Plan and Budget	
Endowment of Chairs for Eminent Scholars	\$ 2,420,000
Research and Development	\$ 3,975,000
Enhancement of the Quality of Departments/Units	\$11,812,345
Recruitment of Superior Graduate Students	\$ 3,952,500
Board of Regents Administrative Expenses	\$ 840,155
Total Funds Budgeted	\$23,000,000

b. Actual Funds Available

Since approval of the FY 2013-14 BoRSF Plan and Budget in December 2012, the REC has issued several opinions relative to the amount of money projected to be available for higher education's portion of the Support Fund. The most recent estimate, released in January 2014, was \$29,450,000. This projection is significantly higher than the previous guidance from REC and the Treasury, as well as projections used to derive the approved Plan and Budget; it is uncertain at this point whether this higher level can be attained. Therefore, total BoRSF funds available for expenditure in FY 2013-14 are \$23,000,000. The recommendations below reflect the programmatic distribution of available funds across all BoRSF components.

SECTION B: ENDOWED CHAIRS FOR EMINENT SCHOLARS COMPONENT

B.1 Competitive Endowed Chairs Program

Seven (7) proposals were submitted for funding consideration this year under the Competitive Program. Six (6) proposals requested \$400,000 each from the Support Fund to endow \$1 million chairs; one (1) proposal requested \$800,000 from the Support Fund to endow a \$2 million chair.

B.2 Restricted Bequest Endowed Chairs Program

One (1) Restricted Bequest proposal, requesting \$800,000 from the Support Fund to endow a \$2 million chair, was submitted in FY 2013-14.

B.3 Summary of the Endowed Chairs for Eminent Scholars Program

The Board received eight (8) Endowed Chairs proposals requesting a total of \$4,000,000 in matching funds from the Support Fund. All disciplines were eligible to apply. A team of out-of-state consultants came to Louisiana in March 2014 to interview campus representatives, evaluate the proposals, and rank them using the guidelines provided in the Board's RFP and program policy. (See **Appendix A** for the rank-order list of FY 2013-14 Endowed Chairs proposals.)

It should be noted that the following stipulation in the Board's Endowed Chairs policy must be applied to the seven (7) proposals submitted in the Competitive Program: "...When requests exceed funds available, the following limitations apply relative to the amount of money that will be awarded per campus under the competitive program: (a) each public campus will be limited to \$1.2 million per fiscal year; and (b) all LAICU campuses combined will be limited to a total of \$1.2 million per fiscal year." The policy further stipulates that "Chairs awarded to institutions of higher education as a result of bequests shall not count toward the monetary limitations set forth in...this policy," cited above.

The \$2,420,000 projected in the FY 2013-14 Plan and Budget to be available in the Endowed Chairs for Eminent Scholars Program includes \$20,000 for consultants. The remaining amount of \$2,400,000 will enable funding for proposals ranked 1, 2, 3, and 5 in the Competitive Program and the proposal received in the Restricted Bequests Program from Tulane University Health Sciences Center. The proposal ranked fourth, from Tulane University must be deferred because insufficient monies remained after funding higher ranked applications to match it as proposed.

Senior Staff Recommendation

The Senior Staff recommends provision of Support Fund money at levels requested to complete the endowments for proposals ranked 1, 2, 3, and 5 in the Consultants' Report (i.e., proposals 005EC, 003EC, 002EC, and 001EC). The Senior Staff further recommends providing Support Fund money at the level requested to complete the endowment for Restricted Bequest proposal 008EC. (See Appendix A.)

SECTION C: ENHANCEMENT OF THE QUALITY OF DEPARTMENTS OR UNITS COMPONENT

C.1 Recommended New Traditional, Undergraduate and Two-Year Institutions Enhancement Projects

The \$11,812,345 figure cited in the FY 2013-14 Plan and Budget for Enhancement includes the following distributions:

Prior Commitments	
Traditional and Undergraduate Enhancement	\$ 300,000
Federal Matching Grants	\$3,875,000
New Awards	
Federal Matching Grants	\$ 250,000
Undergraduate Enhancement	\$1,030,000
Enhancement for Two-Year Institutions	\$ 695,000
Endowed First-Generation Undergraduate Scholarships	\$1,000,000
Endowed Professorships	\$1,600,000
Traditional Enhancement	\$3,062,345
TOTAL	\$11,812,345

The five eligible disciplines in the Traditional Enhancement and Undergraduate Enhancement Program components in FY 2013-14 are business, chemistry, education, mathematics, and physics & astronomy. The Enhancement Program for Two-Year Institutions identifies guiding principles for proposal development rather than limiting submissions by academic discipline.

In the winter of 2013 and spring of 2014, eight teams of out-of-state consultants reviewed, evaluated and ranked the various types of competitive Enhancement proposals. Using the Board's evaluation criteria, five teams evaluated, rated and ranked Traditional Enhancement proposals in the five eligible disciplines; the sixth, seventh and eighth teams, respectively, evaluated, rated and ranked Multidisciplinary Enhancement, Undergraduate Enhancement, and Enhancement for Two-Year Institutions subprograms. Each team had appropriate expertise and experience relative to the specific requirements of the discipline and/or component being reviewed.

With the exception of the Multidisciplinary component, the allocation level for each of the eligible disciplines in the Traditional Enhancement Program was determined by calculating proposal pressure and the amount of Support Fund money requested per discipline as a percentage of the total proposal pressure and amount of Support Fund money requested across these five disciplines in the Traditional Enhancement component. As stipulated in the FY 2013-14 Plan and Budget, Multidisciplinary Enhancement was calculated as 20% of the total available. The total maximum funding anticipated to be available based on allocations in the FY 2013-14 Plan and Budget for meritorious proposals in each of the disciplines in Traditional Enhancement was calculated as follows:

Business	\$454,629
Chemistry	\$803,186
Education	\$405,598
Mathematics	\$367,975
Physics & Astronomy	\$395,888
Multidisciplinary	\$612,469
TOTAL	\$3,039,745

These amounts helped to guide consultants in the development of funding recommendations. The following table summarizes consultants' recommendations for Traditional Enhancement in each discipline and the Multidisciplinary component (**Appendix B**), as well as Undergraduate Enhancement (**Appendix C**) and the Enhancement Program for Two-Year Institutions (**Appendix D**):

Enhancement Discipline/Component	# of Proposals Submitted	1st-Year Funds Requested	# of Proposals Recommended	1st-Year Awards Recommended
Business	12	\$ 1,780,475	4	\$ 454,000
Chemistry	23	\$ 2,937,099	7	\$ 788,107
Education	15	\$ 1,091,624	6	\$ 392,439
Mathematics	12	\$ 1,175,965	4	\$ 339,059
Physics & Astronomy	11	\$ 1,486,920	3	\$ 395,888
Multidisciplinary	18	\$ 2,436,548	7	\$ 592,480
Traditional Enhancement Total	91	\$10,908,631	31	\$2,961,973
Undergraduate Enhancement	42	\$ 2,381,540	24	\$1,023,000
Enhancement Program for Two-Year Institutions	22	\$ 1,828,911	12	\$ 690,400

Senior Staff Recommendations

- 1. Traditional Enhancement:** The \$2,961,973 available and recommended for expenditure shall be awarded in the rank order, at the funding levels, and with the funding stipulations recommended by consultants, and shall be divided among the five eligible disciplines and multidisciplinary projects as follows (see Appendix B):

Discipline	Ranks	Total Funding
Business	1-4	\$ 454,000
Chemistry	1-7	\$ 788,107
Education	1-6	\$ 392,439
Mathematics	1-4	\$ 339,059
Physics & Astronomy	1-3	\$ 395,888
Multidisciplinary	<u>1-7</u>	<u>\$ 592,480</u>
Subtotal Traditional Enhancement	31 projects	\$2,961,973

- 2. Undergraduate Enhancement Program:** A total of \$1,023,000 is recommended for expenditure for the top twenty-four (24) Undergraduate Enhancement proposals submitted in FY 2013-14. Proposals shall be awarded in the rank order, at the funding levels, and with the funding stipulations recommended by consultants. (See Appendix C.)
- 3. Enhancement Program for Two-Year Institutions:** A total of \$690,400 is recommended for expenditure for the top twelve (12) Enhancement Program for Two-Year Institutions proposals submitted in FY 2013-14. Proposals shall be awarded in the rank order, at the funding levels, and with funding stipulations recommended by consultants. (See Appendix D.)
- 4. Should the amount of money ultimately available to fund first-year activities in Traditional, Undergraduate, and Enhancement Program for Two-Year Institutions projects be less than the \$4,675,373 disbursed herein, the following principles shall apply:** (1) All Support Fund money shall be awarded in rank order, at funding levels and with stipulations recommended by consultants; (2) if the remaining money in the budget for a particular component or discipline is insufficient to fully fund the next recommended proposal for that component or discipline, the remaining funds shall constitute the total award for that proposal; and (3) should an institution refuse or be denied an award, that money shall be awarded to the next highest ranked proposal within that component or discipline. (See Appendices B, C, D and E.)

Appendix E summarizes – by campus and Enhancement component – the recommendations for new projects under the competitive Enhancement programs.

C.2 Endowed Professorships Program

The Board of Regents Support Fund Endowed Professorships Program requires the submitting college or university to raise at least \$60,000 from external sources, which is matched by \$40,000 from the Support Fund, thus establishing an endowed professorship valued at a minimum of \$100,000. The program policy guarantees two \$40,000 matching slots to each four-year and special purpose campus, and one \$40,000 matching slot to each two-year campus.

The FY 2013-14 Support Fund Plan and Budget allocates a total of \$1,600,000 to the Endowed Professorships Program. With all requests validated, the Board received by the March 31, 2014 deadline applications for 211 Endowed Professorship \$40,000 slots (41 new requests; 170 backlogged) requiring \$8,440,000 in BoRSF matching funds. Available slots will be allocated for both new and backlogged submissions. Each submitting campus will receive a maximum of two matches (\$80,000) for new submissions, with the remaining slots divided among the three campuses resubmitting backlogged requests. These are allocated consistent with the Regents' well-established practice: based on slots submitted, equal slots are funded for affected campuses. New and backlogged requests are considered separately. (See **Appendix F.**) A complete list of Endowed Professorships applications submitted for funding consideration in FY 2013-14 appears in **Appendix G.**

Senior Staff Recommendation

The Senior Staff recommends approval of \$1,640,000 from the Support Fund to match twenty-seven (27) new submissions and fourteen (14) backlogged submissions to the Endowed Professorships program. (See Appendix F.)

C.3 First-Generation Endowed Undergraduate Scholarships

The Board of Regents Support Fund Endowed Undergraduate Scholarships program requires a submitting four-year college or university to raise at least \$60,000 from external or institutional sources, which is matched by \$40,000 from the Support Fund, thus establishing an endowed scholarship valued at a minimum of \$100,000; two-year campuses must provide \$30,000, to be matched with \$20,000 from the Support Fund to establish an endowed scholarship valued at a minimum of \$50,000.

The FY 2013-14 Support Fund Plan and Budget allocates a total of \$1,000,000 to the Endowed Undergraduate Scholarships Program for the establishment of at least 25 endowed scholarships for first-generation undergraduate students. With all disciplines eligible and all requests validated, the Board has received applications for the matching of one (1) \$20,000 and twenty-four (24) \$40,000 scholarship matches. It would require \$980,000 to fund all submissions. Unclaimed funds of \$20,000 budgeted for Endowed Undergraduate Scholarships matches shall be transferred to the Endowed Professorships program to match previously submitted requests. (See Section C.2, above.) A list of applications appears in **Appendix H.**

Senior Staff Recommendation

The Senior Staff recommends approval of \$980,000 from the Support Fund to match the twenty-five (25) applications submitted in FY 2013-14 under the First-Generation Endowed Undergraduate Scholarships Program. (See Appendix H.)

SECTION D: RESEARCH AND DEVELOPMENT COMPONENT

D.1 Continuation of Previously Funded Research and Development (R&D) Projects and Other Prior Commitments

The \$3,975,000 cited in the FY 2013-14 Plan and Budget as being available for Research and Development (R&D) includes amounts for prior commitments to Support Fund awards approved in previous years as well as approximately \$135,000 in consultants' costs for the FY 2013-14 R&D review process.

D.2 Recommended New Research and Development Projects

R&D Program components include the Research Competitiveness Subprogram (RCS), the Industrial Ties Research Subprogram (ITRS), and the Awards to Louisiana Artists and Scholars (ATLAS) Subprogram. RCS solicits proposals that strengthen the research foundations and competitiveness of Louisiana colleges and universities and help to promote long-term economic development. ITRS targets proposals that support research with significant near-term potential for development and diversification of Louisiana's economic base. ATLAS seeks major scholarly and artistic endeavors from the arts, humanities, and social sciences with potential for broad impact on regional, national and/or international levels.

Eligible disciplines in RCS for FY 2013-14 were biological sciences, chemistry, computer/information sciences, earth and environmental sciences, engineering B (industrial, materials, mechanical, etc.), and health and medical sciences. Since 1993 ITRS has invited ideas across all disciplines for applied research projects that might promote near-term economic development in the State; therefore, no specific target areas or disciplines are defined. ATLAS accepts proposals in all arts, humanities and social sciences disciplines.

From November 2013 through March 2014, approximately 260 mail and subject-area reviewers and three final panels reviewed, evaluated, and ranked research proposals according to the Board's RFP guidelines and evaluation criteria. The final panels highly recommended for funding the top-ranked twenty-two (22) proposals in RCS (\$1,059,279 in first-year funds), five (5) proposals in ITRS (\$288,364 in first-year funds), and twenty-two (22) proposals in ATLAS (\$887,633 in first-year funds). (See **Appendix I.**) It would require a total of \$2,235,276 to fund the first year of all new R&D awards rated Priority I by consultants.

The following table summarizes panel recommendations for the three R&D subprograms:

R&D Subprogram	Number of Proposals Submitted	First-Year Funds Requested	Number of Proposals Recommended	First-Year Awards Recommended
Research Competitiveness Subprogram	112	\$ 6,427,105	22	\$ 1,059,279
Industrial Ties Research Subprogram	35	\$ 2,689,640	5	\$ 288,364
Awards to Louisiana Artists and Scholars	52	\$ 2,197,745	22	\$ 887,633
TOTAL	199	\$ 11,314,490	49	\$2,235,276

Senior Staff Recommendations

The Senior Staff recommends approval of disbursement of \$1,258,389 estimated to be available in FY 2013-14 to fund the first year of new RCS, ITRS, and ATLAS projects as follows:

1. **Research Competitiveness Subprogram: \$685,025**
2. **Industrial Ties Research Subprogram: \$288,364**
3. **Awards to Louisiana Artists and Scholars Subprogram: \$285,000**

Approved R&D proposals shall be funded at the levels and with the stipulations recommended by consultants. Support Fund money shall be awarded to fund at recommended levels the top fourteen (14) RCS proposals, five (5) ITRS proposals, and eight (8) ATLAS proposals. In addition, the following principles shall apply: (1) should an institution refuse or be denied an award, or should FY 2013-14 money be returned from previously funded R&D contracts, that money shall be offered to the next-ranked proposal which the consultants recommended for Priority I funding within the respective subprogram, subject to availability of funds; (2) if the remaining money in the budget for a particular component is insufficient to fully fund the next-ranked recommended proposal for that component, the remaining funds shall constitute the total award for that proposal; and (3) if there are no remaining Priority I proposals in a particular subprogram the money shall be awarded in descending rank order to Priority I proposal(s) in another R&D subprogram. Should the amount of money ultimately available to fund first-year activities in all R&D projects be less than the \$1,258,389 disbursed herein, adherence to the following principles shall be uniformly enforced: R&D Priority I proposals shall be funded in rank order at the levels and the durations and with the stipulations recommended by consultants until the funds designated for each component have been exhausted. (See Appendix I.)

Appendix I also includes a summary, by campus and R&D subprogram, of new projects recommended for funding.

SECTION E: RECRUITMENT OF SUPERIOR GRADUATE STUDENTS COMPONENT

E.1 Traditional Graduate Fellowships and Graduate Fellowships for Teachers

Awards must be made under the Recruitment of Superior Graduate Students Program component more than one year prior to the time that funds are provided for the first year of the fellowship, since at least one year is required to conduct student recruitment activities, and committed for all remaining years to ensure ongoing student support.

The ten eligible disciplines in the Traditional Graduate Fellows component in FY 2013-14 are arts, biological sciences, chemistry, computer and information sciences, earth and environmental sciences, engineering A and B, health and medical sciences, humanities, physics and astronomy, and social sciences.

In February 2014, a team of out-of-state consultants with expertise in both doctoral and master’s-level programs reviewed, rated and ranked thirty-three (33) Traditional Graduate Fellowships proposals and one (1) Graduate Fellowships for Teachers proposal in accordance with the Board’s evaluation criteria. A total of \$2,889,000 in first-year funds was requested in Traditional Graduate Fellowships and \$120,000 in Graduate Fellowships for Teachers. Consultants were informed that \$575,000 in first-year funds was allocated in the Plan and Budget for new Graduate Fellowships projects, up to 20% of which could be set aside for meritorious Graduate Fellowships for Teachers applications. All funded projects will begin in FY 2015-16.

Of the proposals submitted, the consultants recommended the top-rated twelve (12) Traditional Graduate Fellowships applications, for a total first-year expenditure of \$573,500. (See Appendix J.) Yearly funding totals for all recommended proposals are:

	Traditional Graduate Fellowships
FY 2015-16	\$573,500
FY 2016-17	\$573,500

FY 2017-18	\$493,500
FY 2018-19	\$493,500

Senior Staff Recommendation

The Senior Staff recommends approval of funding for the twelve (12) top-ranked proposals submitted in the FY 2013-14 cycle for the Recruitment of Superior Graduate Students Traditional component for the durations and at the levels recommended by consultants. (See Appendix J.)

E.2 BoRSF/Southern Regional Education Board Graduate Fellowships to Promote Diversity Program

Five (5) institutions submitted a total of five (5) proposals requesting funds for the support of 19 doctoral fellows in the FY 2013-14 competitive cycle for this component. (See **Appendix J.**) A total of \$475,000 in first-year funds was requested. Consultants recommended support for three (3) applications, for which funding will begin in FY 2014-15.

Available monies will allow funding for the three (3) top-ranked proposals, for a total first-year allocation of \$175,000. For the recommended proposals, the yearly funding totals are:

FY 2013-14	\$175,000
FY 2014-15	\$175,000
FY 2015-16	\$175,000
FY 2016-17	\$140,000

Senior Staff Recommendation

The Senior Staff recommends approval of funding for the three (3) top-ranked proposals submitted in the FY 2013-14 cycle to the BoR/SREB Graduate Fellowships to Promote Diversity Program for the durations and at the levels recommended by consultants. (See Appendix J.)

Appendix J also contains a summary of the recommendations of new Traditional Graduate Fellowships, Graduate Fellowships for Teachers, and BoR/SREB Graduate Fellowships proposals solicited in FY 2013-14, for which funding will begin in FY 2015-16 and FY 2014-15 respectively.

SECTION F: CONTINGENCY PLAN FOR BUDGETARY SHORTFALL

Senior Staff Recommendation

The Senior Staff recommends approval of the following contingency plan for a budgetary shortfall: should the final FY 2013-14 Support Fund budget not achieve the amount cited herein, any shortfall shall be accommodated through a proportionate reduction in the amounts allocated for proposals in the competitive Enhancement and Research and Development program components.

SECTION G: CAMPUS SUCCESS RATES

Appendix K contains a chart that summarizes – by campus and program – the numbers of proposals submitted to Support Fund components, proposals recommended for funding, and first-year and total funding recommended for all Priority I proposals during the FY 2013-14 BoRSF competitive cycle.

APPENDIX A

**BoRSF Endowed Chairs for Eminent Scholars Program
Rank Order of Proposals, FY 2013-14**

Rank	Proposal Number	Institution	Title of Chair	BoRSF Match Requested	Economic Development (36 points)	Academic Enhancement (52 points)	Recruitment Plan (6 points)	Appropriateness to Campus Role, Scope, & Mission (6 points)	Total Points (100 points)
COMPETITIVE PROGRAM									
1	005EC-14	University of Louisiana at Lafayette	Alex & Loretta Durand Theriot, Jr./BoRSF Chair in Hydrology & Coastal Engineering	\$400,000	36	51	6	6	99
2	003EC-14	Tulane University	Marshall-Heape Endowed Chair in Geology	\$400,000	36	50	6	6	98
3	002EC-14	Louisiana Tech University	Lucius D. McGehee Endowed Chair in Entrepreneurship	\$400,000	34	48	6	6	94
4	004EC-14	Tulane University	Michael A. Corasaniti and Valerie A. Zondorak Chair in International Politics	\$800,000	31	50	6	6	93
5	001EC-14	LSU Alexandria	Scott O. Brame/CLECO Endowed Chair in Entrepreneurship	\$400,000	32	44	6	6	88
6	006EC-14	University of Louisiana at Lafayette	E. G. "T-Boy" & Martha Hebert/BoRSF Chair in Marketing	\$400,000	22	45	6	6	79
7	007EC-14	University of New Orleans	Whitney Bank Chair in Banking	\$400,000	22	38	6	6	72
RESTRICTED BEQUEST PROGRAM									
Satisfactory	008EC-14	Tulane University Health Sciences Center	Venancio Antonio Wander Garcia, IV, M.D. Chair II	\$800,000	34	52	6	6	98

APPENDIX B

**Board of Regents Support Fund Traditional Enhancement Program Business for FY 2013-14 Review Cycle
Priority I Proposals Recommended for Funding by Out-of-State Consultants**

Rank	Proposal Number	PI Name	Institution	Duration	Project Title	Amount Requested		Amount Recommended		
						Year 1	Year 2	Year 1	Year 2	Cumulative Year 1
1	006BUS-14	Mrs. Becky Dubois	University of Louisiana at Lafayette	2 Years	Enhancement of the Undergraduate Hospitality Management [HMGT] Program through the Food Preparation Lab Facility Upgrades	\$159,281.00	\$0.00	\$135,000.00	\$0.00	\$135,000.00
2	005BUS-14	Dr. Frank Martin	Southern University at New Orleans	1 Year	Enhancing Technology Infrastructure across the Business Curricula	\$166,506.00	\$0.00	\$120,000.00	\$0.00	\$255,000.00
3	003BUS-14	Dr. Dan Rice	Louisiana State University and A & M College - Baton Rouge	1 Year	Louisiana State University College of Business Research Lab Mobility and Measurement Enhancement	\$262,586.00	\$0.00	\$158,000.00	\$0.00	\$413,000.00
4	010BUS-14	Prof. John Rodriguez	University of Louisiana at Monroe	1 Year	Digital Marketing Degree - Joint Degree Program	\$163,908.00	\$0.00	\$41,000.00	\$0.00	\$454,000.00

*The RFP restricts second year funding requests to no more than \$50,000.

Number of Proposals	12
Total Money Requested for First Year	\$1,780,475.00
Total Money Requested for Second Year	\$116,400.00
Total Money Requested	\$1,896,875.00
Total Money Recommended for First Year	\$454,000.00

**Board of Regents Support Fund Traditional Enhancement Program Chemistry for FY 2013-14 Review Cycle
Priority I Proposals Recommended for Funding by Out-of-State Consultants**

Rank	Proposal Number	PI Name	Institution	Duration	Project Title	Amount Requested		Amount Recommended		
						Year 1	Year 2	Year 1	Year 2	Cumulative Year 1
1	017CHE-14	Dr. Russell Schmehl	Tulane University	1 Year	Enhancement of Facilities for Time Resolved Spectroscopy in the Tulane Chemistry Department	\$124,872.00	\$0.00	\$124,872.00	\$0.00	\$124,872.00
2	020CHE-14	Prof. Wu Xu	University of Louisiana at Lafayette	1 Year	Integrating Fluorescence Spectroscopy into Chemistry Teaching and Research Laboratories for Undergraduates Majoring in Chemistry, Biology and Engineering	\$33,222.00	\$0.00	\$33,222.00	\$0.00	\$158,094.00
3	013CHE-14	Dr. Yusheng Dou	Nicholls State University	1 Year	Enhancing Computational Chemistry Instruction	\$8,995.00	\$0.00	\$8,995.00	\$0.00	\$167,089.00
4	023CHE-14	Prof. Candace Lawrence	Xavier University	1 Year	Expansion Nuclear Magnetic Resonance Equipment for Undergraduate Research and Modernization of Curriculum	\$143,430.00	\$0.00	\$136,030.00	\$0.00	\$303,119.00
5	014CHE-14	Dr. Vincent Sichula	Nicholls State University	1 Year	Acquisition of a 300 MHz NMR Spectrometer to Enhance Research and Instruction in Chemistry and Chemical Biology	\$206,700.00	\$0.00	\$206,700.00	\$0.00	\$509,819.00
6	012CHE-14	Dr. Marilyn Cox	Louisiana Tech University	1 Year	Improvements to the Sophomore, Junior, and Senior Level Laboratory Experiences at Louisiana Tech University	\$70,988.00	\$0.00	\$70,988.00	\$0.00	\$580,807.00

*Does not include Endowed Undergraduate Scholarships and Endowed Professorships

AGENDA ITEM IV

Concept and Timetable:

Competitive Endowed Superior Graduate Students Scholarships Subprogram

Staff Summary

In considering the filling of vacant Endowed Professorships, some campuses indicated that a greater need exists for graduate student scholarship support. Accordingly, in March Chair Roy Martin has requested staff to: (1) develop a recommendation for a competitive endowed graduate student scholarship program; and (2) permit the conversion of previously matched Endowed Professorships to scholarships on a non-competitive, non-punitive basis.

Board members and guests at the March 26 Sponsored Programs Committee meeting discussed preliminary concepts, expressing strong support for the proposed program. Following the meeting, all Support Fund-eligible campuses were invited to provide insights and opinions related to the concept; responses are due May 15. The prospective program and compiled campus responses will be considered by the BoRSF Planning Committee at its May 30 meeting.

Senior Staff Recommendation

The Senior Staff recommends approval of the following conceptualization and timetable for the competitive Endowed Superior Graduate Student Scholarship subprogram:

- **Establish July 2015 as the effective date to begin**
- **Permit previously matched Endowed Professorships to be converted to Endowed Graduate Student Scholarships**
 - **Conversions will be completed on a non-competitive basis**
 - **Professorships in process of conversion will be excluded from vacancy calculations through use of the waiver provision in current policy**
- **Charge staff, with advice of BoRSF Planning Committee and affected campus officers, to recommend comprehensive guidelines for the new subprogram during September/October 2014**

AGENDA ITEM V.A

Two Requests for BoRSF Matching of Federal Proposals: National Institutes of Health Institutional Development Award (IDeA) Proposal

Background Information

The National Center for Research Resources of the Institutes of Health (NIH) is currently soliciting proposals from academic institutions for continuation of Institutional Development Award (IDeA) grants. The purpose of the program is to strengthen the State's biomedical research capacity. Proposers may request up to \$2.5 million in direct costs annually for a period of five years. Proposals are due June 20, 2014. At its meeting of May 28, 2009, the Board approved the provision of matching funds in the amount of \$1,148,000 for the previous renewal of the Louisiana Biomedical Research Network's Institutional Development Award (IDeA) project.

Staff Summary

Dr. Kerry Davidson, Deputy Commissioner for Sponsored Programs, has received a request from Louisiana State University and A&M College (see Attachment A) for cash match from the Support Fund totaling \$1,148,000 (\$229,600 annually for five years) for an Institutional Development Award (IDeA) continuation proposal entitled "Louisiana Biomedical Research Network." The continuation effort seeks to facilitate the growth of biomedical research activities throughout the State by enhancing inter-institutional communication, collaboration, and the development of biomedical manpower and infrastructure resources.

Senior Staff Recommendation

The Senior Staff recommends that the Board of Regents commit a cash match from previously unspent monies in the Board of Regents Support Fund for the Louisiana State University NIH Institutional Development Award (IDeA) continuation proposal entitled "Louisiana Biomedical Research Network." The amount of cash match provided shall not exceed \$1,148,000 for the five-year duration of the award. Matching funds are to be provided only if NIH Institutional Development Award (IDeA) funding is received.

April 2, 2014

Dr. Kerry Davidson
Deputy Commissioner for Sponsored Programs
Office of Sponsored Programs
Louisiana Board of Regents
1201 N 3rd St
#7-303
Baton rouge, Louisiana 70802

Dear Dr. Davidson:

You will find attached a Request for BoRSF Cost Sharing support, which we would like to include in our renewal application for the NIH INBRE, Louisiana Biomedical Research Network (LBRN). The proposal to NIH will request \$12.5 million. We are requesting \$1.148 million as a match.

We are submitting the grant to you in time to be included in the April Board of Regents meeting. This is primarily because of the June 20 deadline for the proposal. It would be helpful in our final development of the NIH proposal to know the decision on continued support from the BoRSF as soon as possible. However, I understand that you and your staff may prefer to present the proposal to the Board in May depending on your agenda and priorities. In either case, I will be available to attend the meeting and answer any questions that are required.

I trust you will find everything in order. If you or your staff have any questions please do not hesitate to contact me.

Thank you for your consideration.

Sincerely,

Thomas R Klei,
Boyd Professor
PI Louisiana Biomedical Research Network

AGENDA ITEM V.B

Two Requests for BoRSF Matching of Federal Proposals: Department of Homeland Security Center of Excellence Proposal

Background Information

The Department of Homeland Security is expected to release a request for proposals in the near future to establish a new Center of Excellence to join several already established. It is anticipated that proposers will receive total direct federal funding of \$4 million per year for five years. The request for proposals is likely to be released within the next three to four months, with funding decisions made within a year from proposal submission.

Staff Summary

Dr. Kerry Davidson, Deputy Commissioner for Sponsored Programs, has received a request from Louisiana Tech University (see Attachment A) for cash match from the Support Fund totaling \$4-5 million, 20-25% of the anticipated federal award, for the prospective Department of Homeland Security Center of Excellence.

While the RFP has not yet been released, several meetings relative to this funding opportunity have already been held with Senator Mary Landrieu's staff and researchers across the State. It is anticipated that a consortium of universities including UL Lafayette, Louisiana Tech, UNO, Tulane and LSU, along with other historically black college and university partners, will be a part of a collaborative statewide proposal and that the funded Center will have regional and national impact. The team is confident that the developing consortium is well positioned to be designated a Department of Homeland Security Center of Excellence, leveraging Louisiana's status as a disaster laboratory to lead the nation with next-generation innovation and research.

Senior Staff Recommendation

The Senior Staff recommends that the Board of Regents commit a cash match from previously unspent monies in the Board of Regents Support Fund for the Louisiana Tech University proposal for a Department of Homeland Security Center of Excellence. The amount of cash match shall not exceed \$4,000,000 for the five-year duration of the award. Matching funds are to be provided only if Department of Homeland Security funding is received.

Attachment A

LOUISIANA TECH UNIVERSITY

OFFICE OF THE PRESIDENT

April 9, 2014

Dr. Kerry Davidson
Deputy Commissioner for Sponsored Programs
Louisiana Board of Regents
P. O. Box: 3677
Baton Rouge, LA 70821-3677

Dear Dr. Davidson:

I am pleased to inform you that research universities in Louisiana are coalescing efforts to develop a proposal to compete for the designation of a new Department of Homeland Security Center of Excellence (See <http://www.dhs.gov/st-centers-excellence>).

Many conference calls and meetings with the Senator Landrieu's staff and researchers from across Louisiana have taken place. While details about the lead institution and the proposal PI are being finalized, we anticipate that a consortium of universities including UL Lafayette, Louisiana Tech, UNO, Tulane and LSU, along with other potential HBCU institutions will be a part of truly state-wide collaborative proposal. Based on conversations with Senator Landrieu's staff, we expect the COE to focus on the development of new knowledge and innovative tools that public and private sectors can utilize to enhance the resiliency of critical infrastructures. It is our understanding that the DHS Science and Technology Office of University Programs expects to post the funding announcement within the next 3-4 months, and announcements to be made in 12 months. The DHS expects the center to be funded at approximately \$4M per year for 5 years, for the period spanning FY 2015-2020.

Given our unique experiences with disasters of all types, scales and scope, and intimate knowledge of critical infrastructures across multiple sectors within our team, we feel confident that Louisiana is well positioned to be designated as the nation's 10th DHS Center of Excellence. We want to leverage our status as a "disaster laboratory" to truly lead the nation with next-generation innovation and research. Evidence from other centers shows that DHS funding is only a part of the federal funding that comes to these centers, as strong COEs are able to leverage substantial additional funding.

While in prior COE solicitations DHS has officially stated that cost share is not required, we know that matching funds are customarily expected, and will greatly contribute to enhancing the success of our proposal. As such, we request that the Louisiana Board of Regents provide a minimum of 20% to 25% in cost-share as matching funds (total: \$4-5 million) towards the DHS Center of Excellence proposal. Further, given the constraints of time, we request that this request for match, in response to an imminent DHS RFP, be placed for the Board's consideration at the April 2014 meeting.

Please feel free to contact me should you need further information or clarifications regarding this request.

Respectfully,

A handwritten signature in blue ink that reads "Leslie K. Guice".

AN EQUAL OPPORTUNITY UNIVERSITY

AGENDA ITEM VI

Funding Recommendations for Proposals Submitted Under the Louisiana Systemic Initiatives Program (LaSIP)

Background Information

The Louisiana Systemic Initiatives Program (LaSIP) was established during 1991-92 to improve mathematics and science education through a \$10 million NSF grant, combined with matching Support Fund dollars from the Board of Regents and the Board of Elementary and Secondary Education. These monies have been combined with annual resources from U.S. Department of Education post-Sputnik programs, originally labeled the “Eisenhower” program, and now No Child Left Behind. LaSIP’s signature effort has been statewide university-based Science, Technology, Engineering and Mathematics (STEM) professional development for K-12 teachers. Since NSF and Support Fund dollars no longer exist for LaSIP, the K-20 LaSIP Council, specially formed for the program, has ceased to function and legislation has been introduced in the current session to repeal statutes related to LaSIP.

Staff Summary

Currently, the only remaining dollars available for LaSIP, approximately \$1.5 million, are those annually allocated to the Board of Regents through No Child Left Behind (USDE Title II, Part A). Federal regulations require that these dollars be competitively awarded to university-based professional development projects for K-12 teachers.

After reviewing fourteen (14) proposals, out-of-state consultants recommend that seven (7) projects be funded across five (5) campuses. (See Attachment A.) These projects are expected to provide year-long intensive STEM professional development for K-12 teachers, who often become teacher-leaders in their respective schools.

Senior Staff Recommendation

The Senior Staff recommends approval of \$969,000 in No Child Left Behind monies to support the seven (7) LaSIP projects recommended for funding in FY 2014. Projects shall be funded in the amounts and with the stipulations recommended by consultants.
